

29th JULY'13

SECURE FLIGHT UPDATE(SFPD)

Air India Security would like to reiterate the need for inserting Secured Flight Data without titles and Honorifics (Mr, Mrs., Senator..) for all passengers travelling on US bound flights. The insertion of Secured Flight Data (SSR DOCS, DOCO and DOCA) and to omit the use of the Honorifics/Titles in all PNRs for travel into, out of or over the USA is mandatory as per the directives of US Department of Homeland Security, and it is extremely important, necessary that all agencies are advised of this requirement. Please disseminate this information urgently to all travel agents under your jurisdiction and ensure this information is entered into all existing bookings. At the time of pre-flight checks the PNR will be cancelled if TSA guidelines are not adhered to. This may please be conveyed to all travel agents under your jurisdiction. Any bookings made within D-3 days will have to adhere to mandatory TSA guidelines at the time of creation of the PNR as this information will be sent automatically to the US Department of Homeland Security on the end of PNR creation. If TSA requirement is not adhered for any booking, the fine levied by the US Department of Homeland Security will have to be debited to the agent responsible for the booking.
