Amadeus Hotels Enhancement - Flexible Location Search

/LOC

Dear Travel Partner,

Amadeus is pleased to announce the enhancement to Hotel Search – the Flexible Location Search. Using this search parameter with the **/LOC-** option, subscribers can now search for hotels around specific locations in all cities.

KEY BENEFITS

- ➔ Unique option which combines search for landmarks in geo-coded countries, as well as non IATA cities.
- ➔ Facilitates and speeds up the search and sales process

MAIN FEATURES

- ➔ The search can be done along with a Hotel List (HL) or a Multi-property Availability request (HA).
- ➔ Location name can be added as free flow text (45 characters maximum).
- ➔ Does not imply any screen change, the intermediate screen is based on the Point Of Reference display already existing on Amadeus.
- ➔ The **"/LOC-** cannot be used together with the options:
 - Specific geo-coded place **"/RP-**,
 - City area **"/AR-**,
 - City search **"/CT-** and
 - Location override **"/LO-**

For more details, please refer to HE HOTEL, GP OPT
