

PNR History Envelope Enhancement

We are pleased to share the enhancement in PNR history envelope (000 numbered in history) at the time of booking creation.

Overview:

The PNR history contains a record of the creation of the PNR and any additions, modifications, cancellations and deductions that are subsequently made to it. The system updates the history at each end of the transaction entry.

Each time a PNR is modified, a new envelope is created with the modification done. Activities that are associated with the creation of a PNR are numbered 000 (Zeros). Activities from the first retrieval of the PNR are numbered 001, from the second retrieval 002, and so on. Each retrieval and set of modifications is called a step/envelope.

However, prior to enhancement, some original elements (AP/TK/RM/Fare Elements etc.) were missing in envelope 0.

The PNR history envelope 0 is enhanced to report additional elements at creation time. The list of the new history codes are:

1. **OP - Original Phone Element**
2. **OF - Original Fare Element**
3. **OB - Original Billing Address Element**
4. **QO - Original Address Verification Element**
5. **OT - Original Ticketing Arrangement Element**
6. **OY - Original Total Price Element**
7. **MO - Original MCO Element**
8. **KO - Original Remark/Confidential Remark**
9. **OD - Original Mailing Address Element**
10. **SSR - Original SSR Element (for example, SSR SEAT RQST)**
