### Secure Flight Passenger Data

Dear Travel Partner,

As you are aware that with effect from 1<sup>st</sup> Oct 2010, it will be mandatory to enter Secure Flight Passenger Data in the PNRs, especially for passengers flying within, from and to the United States.

#### Key Benefits of the program

- Bringing better control of the passengers travelling within, to and from the US.
- Ensuring a smooth travel experience for these passengers, by performing advance watch list matching prior to departure and delivering boarding authorization

#### Secure Flight Passenger Data (SFPD) consists of the following information:

- **Passenger's Name** (as per passport)
- **Passenger's birth date** (DDMMYY format)
- **Gender** (M/F)
- **Redress Number** (if available).
- **Known traveler number** (if available – at a later stage)

Travel Agents must enter the SFPD (Secure Flight Passenger Data) only through the following elements of the PNR: **SSR DOCS** (Passenger name, DOB, Gender) and **SSR DOCO** (Redress Number – if applicable).

It is recommended that the SFPD information should be entered in the PNR at least **72 Hours Before** Departure (or immediately for booking created within 72hrs).
