## Emirates COVID19 Medical Travel Insurance Policy\* Update 251121

Dear Trade Partner,

Emirates can confirm that our existing multi-risk travel insurance offer for all Emirates customers will be suspended from 1 December 2021.

Customers who have purchased tickets on or before 30 November 2021 will continue to be covered under the multi-risk insurance cover. Please click [here](#) for more information.

This decision was made after a review of customer usage and feedback since Emirates first introduced its industry-first complimentary insurance cover. Contributing successfully to restoring travel confidence and demand, our initiative has been hugely welcomed by our customers and trade partners.

We will continue to provide from 01 Dec 2021 till 31 March 2022 a COVID-19 medical travel insurance.

If your customers would like to benefit from the current multi-risk [cover](#), please issue their tickets on or before 30 November 2021. This insurance will automatically apply to all Emirates tickets purchased up to 30 November 2021, and extends to Emirates codeshare flights operated by partner airlines, as long as the ticket number starts with 176.

For any clarity on this topic please reach out to your local Emirates Sales Team, or follow the links in this message to our comprehensive information on Emirates.com.

Thank you for your ongoing partnership, for more information on all of Emirates products, services and latest news please visit the [Emirates Partners Portal](#), a bespoke site for our global trade community.

Kindly disseminate this information to all concerned.

Kind Regards

Emirates - India
