

Key Differences between VTL and Non-VTL flights to Singapore

Dear Trade Partners,

To enter Singapore quarantine-free, travellers must apply for a Vaccinated Travel Pass (VTP) and fly on designated Vaccinated Travel Lane (VTL) flights. As Singapore Airlines (SIA) may operate both VTL and non-VTL flights on the same routes, please select your flights carefully. Please note that VTL flights are denoted by a VTL designator in the booking system.

Please be guided that SIA currently operates only 03 VTL flights to Singapore from India. These are **SQ403 (ex DEL), SQ423 (ex BOM) & SQ529 (ex MAA)**. All other SIA flights from India are non-VTLs.

Travellers on non-VTL flights will be subject to 7-day home quarantine measures/Stay-Home Notice (SHN) in Singapore. Short-term visitors are not allowed to enter Singapore on these flights unless they hold a valid approval of entry from the ICA. The VTP will not meet this requirement.

All travellers entering Singapore will need to comply with the country's Covid-19 testing requirements.

Details of the flight schedules can be found in the table below. All times stated are local.

Flight Schedules to Singapore ex India				
Operating Flight No	Sector	Aircraft Type	Day of Operation	Departure/Arrival
SQ 423	Mumbai-Singapore (VTL)	A359M	Daily	23:35 / 07:30 (+1)
