

## Vaccinated Travel Lane (VTL) Update

Dear Trade Partners,

Last month due to regulatory restrictions, Singapore Airlines had stopped accepting new bookings for all VTL flights from India to Singapore that were scheduled between 23 December 2021 and 20 January 2022.

With effect from today i.e 21 January 2022, Travellers may continue to book VTL flights for quarantine-free travel into Singapore from India.

To enter Singapore quarantine-free, travellers must apply for a Vaccinated Travel Pass (VTP) and fly on designated Vaccinated Travel Lane (VTL) flights. As Singapore Airlines (SIA) may operate both VTL and non-VTL flights on the same routes, please select your flights carefully. Please note that VTL flights are denoted by a VTL designator in the booking system.

Please be guided that SIA currently operates only 03 VTL flights to Singapore from India. These are **SQ403 (ex DEL)**, **SQ423 (ex BOM)** & **SQ529 (ex MAA)**. All other SIA flights from India are non-VTLs.

Travellers on non-VTL flights will be subject to 7-day home quarantine measures/Stay-Home Notice (SHN) in Singapore. Short-term visitors are not allowed to enter Singapore on these flights unless they hold a valid approval of entry from the ICA. The VTP will not meet this requirement.

All travellers entering Singapore need to comply with the country's Covid-19 testing requirements.

Details of the flight schedules can be found in the table below. All times stated are local.

Flight Schedules to Singapore ex India
