

Work anywhere, anytime, anyhow

Boost your productivity

Amadeus Selling Platform Connect is the next generation booking and fulfillment platform designed to free you from technology constraints.

Always connected to your business and your customers

Access Amadeus Selling Platform Connect from anywhere with an internet connection at any time. Do business wherever you want 24/7 – whether that's visiting your customer, at home or traveling.

Your choice, your connection

Choose the hardware that suits you. Accessible on all main operating systems (including Mac) and fully certified to work with all the latest versions of the major internet browsers (Internet Explorer, Google Chrome, Mozilla Firefox, and Apple's Safari).

Save time and money

No software installations or manual upgrades required means you save money through global consistency and standardization. With everyone in your organization always on the same version using the same workflows and tools, you and your travel professionals will experience fewer frustrations and improved productivity all around.

Deliver exceptional service

Seamlessly access the largest choice of content: air, hotel, car and more. Easily book the widest range of merchandising content including the same ancillary services and branded airline fare families that you would see on an airline website. Amadeus' leading low fare search lets you find the lowest fares and save more on average for your travelers when you book.

"Technology is the most important component of travel, and the ability to book travel online or via a mobile device or tablet is essential as it lets me work anywhere. Amadeus allows us to promote ourselves as not only a company that sells airfare but also a company that sells different experiences and activities."

Julio Fernandez
Internet Sales Manager – Tom Tours & Services
USA

"Travel Shoppe agents rely on Amadeus Selling Platform Connect to help them provide consistent, attentive service while booking a full journey. Agents have speedy access to integrated hotel content, real-time airplane seat availability, and everything they need without having to run multiple searches."

Hilda Morrison
Agency Manager – Travel Shoppe
USA

Put your passion to work

Focus on what you do best

Simple, intuitive interface

The easy-to-use Graphical User Interface (GUI) adapts completely to your way of working, and you can seamlessly switch between cryptic commands and the graphical interface at any point during booking.

Multitask with ease

You can open and work on six independent work session tabs at the same time, similar to the different sheets in Microsoft Excel. Each tab is independent, yet remains visible and accessible at all times. Within each task, you have a full command page and all of the GUI modules available.

Work more efficiently

Scripts are deployed to our entire customer network instantly, saving you time and expense. Share your newly defined productivity rules with any other travel professional or office in your organization. Your travel consultants will always have the same, latest version of the platform, which means that everyone can access the same functionalities, including custom scripts.

Increase your productivity*

Amadeus Selling Platform Connect will feature a range of time-saving features – such as Smart Flows, Quality Monitor*, File Finishing*, Smart Triggers*, Smart Scripts*, Smart Key translation and Cryptic Magic GDS translation tool – designed to improve both your performance and productivity, saving you time and money.

*These features are coming soon.

Amadeus is at the heart of the global travel industry. Our people, our technology and our innovation are dedicated to working with our customers and partners to shape the future of travel.

- We help them connect to the travel ecosystem.
- We help them serve the traveler.
- We help them manage their travel business.

Together, let's shape the future of travel.
